

Clorder offers technology and marketing solutions to enable restaurants to grow big and stay profitable.

Clorder's online and mobile ordering platform enables restaurants to receive pre-paid online orders and target customers with offers, discounts and rewards.

Through online and social media marketing services, Clorder can help restaurants attract customers – both dine-in and online.

FEATURES & SERVICES

ONLINE ORDERING

Customers can order food from your online menus and prepay in advance on their mobile or desktop device.

WEBSITES

We build your mobile-compliant and SEO- optimized website with rich customer experience so that your online presence works for you.
